(54) MAKE-UP ADVICE SYSTEM

(57)Abstract:

PROBLEM TO BE SOLVED: To give a proper make-up advice by displaying a simulation picture of a make-up face whether a customer looks good or not from a point of total impression.

SOLUTION: The make-up advice system is provided with a computing process means of forming and outputting simulation pictures of make-up faces for a target person on a plurality of impressions after collecting facial pictures of the target with a picture input means and classifying them into a plurality of impression patterns according to amount of characteristics and outputting the results.

LEGAL STATUS

[Date of request for examination] 19.06.2001

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number] 3582458

[Date of registration] 06.08.2004

[Number of appeal against examiner's decision]

of rejection]

[Date of requesting appeal against examiner's
decision of rejection]

[Date of extinction of right]
